

## Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper that automatically sets off to unload as soon as bumper release contacts the side of a dumpster. Once dumping is done, the hopper goes back to a locked and upright position. This piece of equipment is even accessible along with a cable that enables operation from the seat of the forklift so as to have the option of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish to maintain durability.
