

TCM Forklift Parts

TCM Forklift Parts - In the global industry of material handling, forklifts play an important part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread worldwide.

Originally started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the trade. TCM began constructing forklift manufacturing sites outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial lift trucks, making their models recognizable all around the world. With a strong and energetic workers, TCM has been able to continually work towards becoming a future leading material handling business.
